

KOHLER®

PLEASURE CRAFT GENERATORS

empowering life
onboard

There are those
for whom contentment is measured

Kohler, known worldwide for gracious living, brings the recreational boating and sport-fishing enthusiast a full complement of powerful, quiet-running diesel and low-CO gasoline generators, enclosures, controls and more — all backed by the most impressive support network on land or sea. With Kohler, the power you need is there — no matter where your vessel or sense of adventure might take you.

with sound housing

Advanced Digital Control

Kohler has become the choice for OEM power with most U.S. boatbuilders — and for good reason. KOHLER® diesel generators produce up to 180 kW at 60 Hz and 150 kW at 50 Hz, engineered to the latest EPA compliance levels. And our gasoline generators, ranging from 5 kW to 15 kW, reduce carbon monoxide emissions by more than 99 percent. In fact, every KOHLER gas generator is low CO — and we are the only company who can make that claim. But perhaps most important, it all comes from a true single-source manufacturer. Every major component of the KOHLER diesel generator, from alternators and controls to sound shields, is designed, manufactured and assembled start to finish in our own facilities. That's the power of freedom.

By building generators, we've built a following.

Over the past 125 years — 85 of them making generators — Kohler has established an enviable reputation as a company that responds to its customers. And that's made us a leader in marine power systems. For pleasure craft owners considering re-powering, choosing Kohler means gaining access to the widest choice of turnkey solutions, technical expertise, service networks and experience. Power with Kohler and find out why those who live for the water won't power any other way.

Go where you want to go. Kohler will meet you. Every KOHLER® generator comes with a full five-year comprehensive warranty, supported by a worldwide network of more than 600 marine dealers and distributors on every continent. Choose your port of call — from North and South America and Europe to Africa, the Middle East and Asia-Pacific — you won't be far from original KOHLER parts and expert 24/7 service.

Advancing living environments worldwide.

Kohler Power Systems didn't become one of the world's largest generator manufacturers by accident. We did it by dedicating every Kohler business unit to improving the places you live, work and play.

We strive to deliver products and services in ways that capture the essence of charm, good taste, and generosity of spirit. And through a continued allegiance to industry-leading design and technology, a single level of quality consistently above the standard, and service-minded attitudes, we believe those objectives can be met.

Right now, Kohler ideas and craftsmanship are at work making people's lives better. Our plumbing products, exquisite furniture, engines and generators, hospitality and real estate are at the forefront of more gracious living.
